February 27, 2024

How to rebid with a strong hand if our partner passed and opponents found major fit? In general: Do not rebid. With any strength and balanced hand: PASS. With unbalanced hand bid  $\times$  to show other (unbid) major, 2NT to show minors or  $3\clubsuit$  to show clubs.

## Example

1. Bidding:

$1\clubsuit - (1\spadesuit) - P - (2\spadesuit)$

$\times - (P) - ?$

What to do next?

$\spadesuit T871 \heartsuit 82 \diamondsuit KJ852 \clubsuit T5$  (4)

Opponents showed  $\spadesuit$ -fit, so our partner has at most  $1\spadesuit$ . With  $5\heartsuit$  he would open  $1\heartsuit$ , so he has  $4\heartsuit$  ( $\times$  showed  $\clubsuit$  and  $\heartsuit$ ). It means that we most probably have fit in  $\diamondsuit$ .

Correct bid:  $3\diamondsuit$ .

$1\clubsuit - (1\heartsuit) - P - (2\heartsuit)$

?

- $\times = \clubsuit\spadesuit$ , choose
- 2NT =  $\clubsuit\diamondsuit$ , choose
- $3\clubsuit =$  to play

$1\clubsuit - (1\spadesuit) - P - (2\spadesuit)$

?

- $\times = \clubsuit\heartsuit$ , choose

- $2NT = \clubsuit \diamond$ , choose
- $3\clubsuit =$  to play

$1\diamond - (1\spadesuit) - P - (2\spadesuit)$   
?

- $\times = \diamond \heartsuit$ , choose
- $3\clubsuit = \clubsuit \diamond$ , choose

$1\diamond - (1\heartsuit) - P - (2\heartsuit)$   
?

- $\times = \diamond \spadesuit$ , choose
- $3\clubsuit = \clubsuit \diamond$ , choose

## 1 Random bids logi z pierdolenia po piwie

- $1\clubsuit - 1\heartsuit$   
 $3\clubsuit$   
 $3\clubsuit = INV, (15)16+, 6+\clubsuit$
- $1\diamond - (1\spadesuit) - 2\spadesuit$   
 $2\spadesuit = F$  to  $3\diamond$
- $(1\heartsuit) - \times - (1NT) - \times$   
 $\times = 9+$
- $(2\diamond \text{ } ^6\heartsuit) - 4\clubsuit - (P) - 4\spadesuit$   
 $4\spadesuit = PASS$  with  $\spadesuit$ , do not bid over  $5\clubsuit$  with  $\heartsuit$
- $(2\diamond \text{ } ^6\heartsuit) - 3NT$   
 $3NT = \text{not } GF$
- Still too weak for Leaping Michaels:  
 $\spadesuit 7 \heartsuit AKJT7 \diamond AQ852 \clubsuit A2$  (18)  
 $(2\spadesuit) - 3\spadesuit$
- $2\clubsuit - 2\heartsuit$   
 $3NT - ?$

- $4\diamond, 4♥ = \text{TRSF to } ♥/♠$
- $4♣ = \text{choose } ♥♠ \text{ or bid } 4\text{NT NAT}$

- Too weak for Michaels:

$$♠KQ986 \quad ♥3 \quad ♦AT986 \quad ♣A7 \quad (13)$$

$$(3♥) - 3♠$$

- Not enough points/shape for  $3♠$ :

$$♠KQT8 \quad ♥85 \quad ♦KJ8 \quad ♣A642 \quad (13)$$

$$1♣ - 1♠$$

$$2♠$$

- $1x - x - 1y - x$

$x$  is penalty!

- $(2♠) - x - (3♠) - x$

$x = \text{both minors, but also okay to play } 3♠ x \text{ or } 3\text{NT}$

- **GF** in **VUL**, **SIGN-OFF** in **non-VUL**:

$$♠T6 \quad ♥K9832 \quad ♦T62 \quad ♣A95 \quad (7)$$

$$(2♠) - 2\text{NT} - (\text{P}) - 3♦$$

$$(\text{P}) - 3♥ - (\text{P}) - ?$$

- $(2♠) - 2\text{NT} - (\text{P}) - 3♣$

$$(\text{P}) - 3♦ - (\text{P}) - 3♠$$

$$(\text{P}) - 3\text{NT} - (\text{P}) - 4♣$$

?

$$4♣ = 5+♣$$

$$- 4♦ = \text{agreeing } ♣$$

$$- 4♥, 4\text{NT} = \text{to play}$$

- $(2♥) - 2\text{NT} - (3♥) - 4♥$

$$4♥ = \text{TRSF to } ♠$$

- $1♣ - (1♠) - x - (\text{P})$

$$1\text{NT} - (\text{P}) - 2♦$$

× = 4♥: 3-fit support ON

2♦ = two-way checkback

- Good enough for Leaping Michaels:

♠ – ♥ A K J 4 2   ♦ K 2   ♣ A K J 8 5 2 (19)

(2♦<sup>6♥</sup>) – 4♣
