

1♦ Unbalanced with Gazilli

Bartek Słupik

22 lipca 2025

Basic stuff

- 1♦ opener promises 5+♦.
- That means you need to open 1♣ with ALL 4441s and (31)45s.
- By playing 1NT rebid as Gazilli (undisclosed strong) the 2♥ = ♥♠ response is no longer needed.
- The 2♠ NT transfer is a crime opposite an unbalanced hand.
- Hence, the response structure should define these bids as natural and weak:

1♦	
2♥	Natural 6+♥, 5-9, vul-dependent, can be weaker if 4th hand has not made a bid yet
2♠	Natural 6+♠, 5-9,
3♣	Natural 6+♣, INV

Gazilli position arises after a 1♥ or 1♠ response.

1♦	1♥
1♠	NF
1NT ^A	16+ ANY hand except those below
2♣	Natural 11-15
2♦	Natural 11-14
2♥	Natural
2♠	19+ Natrual GF
2NT	16+ 6+♦ 4♣
3♣	15-17 5♦ 5♣

1♦	1♥
1N	
2♣ ^A	8+ ANY hand except those below
2♦	To play
2♥	10-11 6♥

After the GF relay, we use transfers:

1♦	1♥
1N ^A	2♣ ^A
2♦	Exactly 3♥
2♥	4♥
2♠	unused
2NT	6♦ 322♠ or 5♦ 4♣ 22♠ ("balanced" hand) → 3♣ ASK
3♣	5♦ 4+♣ with ♠ shortness
3♦	6+♦ with ♠ shortness
3♥	unused (maybe 4♥ with void?)
3♠	SPL stronger than direct
4♣	SPL stronger than direct
4♦	4♥ and long ♦

The 1♠ response has an issue with opener having 5-4♥ and a weak hand. This is solved by inserting it into the 1NT response:

1♦	1♠
1NT ^A	16+ ANY hand except those below 4♥ WEAK !!
2♣	Natural 11-15
2♦	Natural 11-14
2♥	Natural 16+
2♠	Natural
2NT	16+ 6+♦ 4♣
3♣	15-17 5♦ 5♣

1♦	1♠
1N	
2♣ ^A	8+ ANY hand except those below
2♦	To play
2♥	Natural, 5-7
2♠	10-11 6♠

1♦	1♠
1N ^A	2♣ ^A
2♦	Weak with 4♥
2♥	3♠
2♠	4♠
2NT	6♦ 322♠ or 5♦ 4♣ 22♠ ("balanced" hand) → 3♣ ASK
3♣	5♦ 4+♣ with ♠ shortness
3♦	6+♦ with ♠ shortness

One can also ditch the double check-back as it no longer has any purpose:

1♦	1♥
1♠	
1NT	To play
2♣	INV ⁺ any hand (2♦ rejects)
2♦	To play
2♥	10-11 6♥
