# Reverses

# Krystyna Gasińska based on Gavin Wolpert's class

#### January 28, 2024

1x - 1y - ?

- $2\mathbf{z}$ ,  $\mathbf{y} < \mathbf{z}$  = reverse
- $3\mathbf{y}, \mathbf{y} > \mathbf{z} = \text{jump shift}$
- 3z, y < z = jump reverse

1m - 1 - ?

- $1 \spadesuit = 4 \spadesuit$ , 12-17
- 2 = 4, (18)19+

#### 1 Reverse

- F1
- (16)17 + 4-5 distribution
- first suit always longer (with 5-5 we open higher suit)
- do not jump above a reverse to show extra values
- jump rebid of a minor denies 4M

### 2 Jump shift

- **GF**
- (18)19+

## 3 Jump reverse

- **GF**
- shows 6+ cards in first suit
- does not promise anything in the second suit

## 4 Reverse: responder's rebid

- Cheaper from  $4^{\rm th}$  suit and  $2{\rm NT}={\rm slow}$  down bid ( $\leq 7{\rm pc}$ ), we are not in  ${\bf GF}$ .
- Bid above slow down bid = GF.
- Bid below slow down bid  $= \mathbf{F1}$ .
- After slow down bid responder may sign off in any of the opener's suits.

!!

• Whatever responder bypass is denied.

• Bidding 4<sup>th</sup> suit if it is above 2NT shows 5-5 in responder's suits.

# 5 Reacting to slow down

• After slow down bid opener is requested to bid 3 of the suit they opened or, if there is room below this bid, they can bid 2NT or support for the responder's suit. All those bids are NF.

#### Examples: opener's hand

Just in place for a reverse. Open  $1\clubsuit$  and reverse  $2\blacktriangledown$ .

2. 
$$\bigstar K7 AQ32 AQJT96$$
 (16)

Open  $1 \diamondsuit$  and rebid  $2 \heartsuit$ . Remember that jump rebid of a minor denies 4M.

Open  $1\clubsuit$ , rebid  $2\blacktriangledown$  and then bid again to show 5th  $\blacktriangledown$ .

4. You open 1♦. Partner rebids 1♠.

The hand is strong enough to reverse, but it is better to bid 2NT showing balanced hand. We have two club stoppers. If we had no club stopper, we would reverse.

5. 
$$\blacktriangle 5 \forall A4 \land KJ863 \blacktriangleleft AKQ63$$
 (17)

This hand is not strong enough to jump shift. Open  $1 \blacklozenge$  and rebid  $2 \clubsuit$ .

6. You open 1♣. Partner rebids 1♠.

Jump reverse to  $3 \blacklozenge$  single suited  $\clubsuit$  hand and **GF**.

#### Examples: responder's hand

1. Partner opened  $1 \blacklozenge$ , you bid  $1 \spadesuit$ , partner rebid  $2 \blacktriangledown$ .

$$\bigstar KQ65 \ \blacktriangledown T2 \ \blacklozenge QJ4 \ \bigstar A642 \tag{12}$$

Bid  $3 \blacklozenge$  showing support for  $\blacklozenge$ . It is a **GF** bid.

2. Partner opened  $1 \blacklozenge$ , you bid  $1 \spadesuit$ , partner rebid  $2 \blacktriangledown$ .

Bid 2NT - slow down.
