How to rebid with a strong hand if our partner passed and opponents found major fit? In general: Do not rebid. With any strength and balanced hand: PASS. With unbalanced hand bid ✕ to show other (unbid) major, 2NT to show minors or 3♣ to show clubs.

Example

1. Bidding:
   1♣ – (1♠) – P – (2♠)
   ✕ – (P) – ?
   What to do next?

   $$♠T871 \ ♥82 \ ♦KJ852 \ ♣T5 \tag{4}$$

   Opponents showed ♠ -fit, so our partner has at most 1♠. With 5♥ he would open 1♥, so he has 4♥ (✕ showed ♣ and ♥). It means that we most probably have fit in ♦.
   Correct bid: 3♦.

1♣ – (1♥) – P – (2♥)
?

- ✕ = ♣ ♠, choose

- 2NT = ♣ ♦, choose

- 3♣ = to play

1♣ – (1♠) – P – (2♠)
?

- ✕ = ♣♥, choose

- 2NT = ♣♦, choose
- 3♣ = to play

1♦ − (1♠) − P − (2♠)
?

- × = ♥♥, choose
- 3♣ = ♣♦, choose

1♦ − (1♥) − P − (2♥)
?

- × = ♠♠, choose
- 3♣ = ♣♦, choose

(1♦) − ?

- 3♦ = gambling ♣

(1♣) − ?

- 3♣ = ♣ preempt

1♣ − (×) − ?

- 2NT = preempt ♣
- 3♣ = limit raise

1♣ − (1x) − ?

- 3♣ = preempt

...5x − ?

5x = query kings

- agreed suit = no kings
- 5x+1 = lowest side-suit king or two other kings
- 5x+2 = middle side-suit king or two other kings
- 5x+3 = highest side-suit king or two other kings

1 Random bids logi z pierdolenia po piwie

- 1♣ – 1♥
  3♣

  3♣ = **INV**, (15)16+, 6+♣

- 1♦ – (1♠) – 2♠

  2♠ = **F** to 3♦

- (1♥) – × – (1NT) – ×

  × = 9+

- (2♦ ⁶♥♠) – 4♣ – (P) – 4♠

  4♠ = PASS with ♠, do not bid over 5♣ with ♥

- (2♦ ⁶♥♠) – 3NT

  3NT = not **GF**

- Still too weak for Leaping Michaels:
  $$♠7 \ ♥AKJT7 \ ♦AQ852 \ ♣A2 \qquad (18)$$
  (2♠) – 3♠

- 2♣ – 2♥
  3NT – ?

  – 4♦, 4♥ = TRSF to ♥/♠

  – 4♣ = choose ♥♠ or bid 4NT NAT

- Too weak for Michaels:
  $$♠KQ986 \ ♥3 \ ♦AT986 \ ♣A7 \qquad (13)$$
  (3♥) – 3♠

- Not enough points/shape for 3♠:
  $$♠KQT8 \ ♥85 \ ♦KJ8 \ ♣A642 \qquad (13)$$

  1♣ – 1♠
  2♠

- 1**x** – × – 1**y** – ×

  × is penalty!

- (2♠) − × − (3♠) − ×

  × = both minors, but also okay to play 3♠ × or 3NT

- **GF** in **VUL**, SIGN-OFF in **non-VUL**:

$$♠ \, T\,6 \quad ♥ \, K\,9\,8\,3\,2 \quad ♦ \, T\,6\,2 \quad ♣ \, A\,9\,5 \tag{7}$$

  (2♠) − 2NT − (P) − 3♦
  (P) − 3♥ − (P) − ?

- (2♠) − 2NT − (P) − 3♣
  (P) − 3♦ − (P) − 3♠
  (P) − 3NT − (P) − 4♣
  ?

  4♣ = 5+♣

    − 4♦ = agreeing ♣

    − 4♥, 4NT = to play

- (2♥) − 2NT − (3♥) − 4♥

  4♥ = TRSF to ♠

- 1♣ − (1♠) −× − (P)
  1NT − (P) − 2♦

  × = 4♥: 3-fit support ON
  2♦ = two-way checkback

- Good enough for Leaping Michaels:

$$♠ \, - \quad ♥ \, A\,K\,J\,4\,2 \quad ♦ \, K\,2 \quad ♣ \, A\,K\,J\,8\,5\,2 \tag{19}$$

  (2♦ $^{6♠}$) − 4♣

How to invite?

1. 1♠ − (2♣) − 2♠ − (3♣)
   ?
   As there are two suits available, bidding either of them is a natural invite. Double is penalty.

2. 1♠ − (2♦) − 2♠ − (3♦)
   ?

There is only one suit available, so bidding it is an artificial invite. Double is penalty.

3. 1♠ – (2♥) – 2♠ – (3♥)
   ?

   There is no inviting suit. Double is invite.
